AHMED ELZOWAWI

Software Engineer

SKILLS

Javascript - HTML - CSS - Python - React.js - Bootstrap - SQL

Technologies

Git - Linux - Webpack

EXPERIENCE

Holberton School, Tunis, Tunisia — *Software engineering student*

Jan 2022 – PRESENT

- Helped Colleagues understand some technical concepts. How did I do it ? By making the concept more simple by maybe 50%.
- Gave presentations to colleagues and to the staff working there. Why would anyone care ? A possibility of impressing them by maybe more than 40%.
- What did I do? Implemented a full working shell with a team consisting of two members that coverev over 80% of what we were required to do.

Projects

Beyond Bookkeeping: A web app that shows your expenses on charts

- Technologies used: HTML, CSS, JS, EJS.

Monty: An interpreter for the Monty language.

- Technologies used: C language.

Simple shell: A command line interpreter that accepts commands from the user.

- Technologies used: C language.

EDUCATION

Holberton School, Tunis, Tunisia
